

iTSA™ Notes

The Easy Tear-Away Note

iTSA™ Notes

An alternative to traditional scratch pads

iTSA Tear-Away Notes are available in pads of 25 or 50 sheets, and in multiple sizes. iTSA notepads are glued with a unique adhesive along the top that disappears as sheets are torn from the pad. They are printed in full color, feature eight functional sizes and each size can be customized to fit your needs.

Coupons

A great way to reach customers

iTSA's 4" by 2.5" size is perfect for coupons. Add a coupon to a grocery store shelf. Consumers can grab one as they need them, and can take one or multiple. Each notepad has an eco-friendly cardstock backer, eliminating the need for the typical heavy chipboard and gummed edge. They are a great value-add for grocery stores and beverage distributors.

Restaurants and dining

In addition to grocery coupons, iTSA notes can make it so restaurants are able to reach their customers and encourage repeat visits. These inviting and informative coupons can be designed to contain as much detail as desired, and function in much the same manner as the shelf coupons. When a customer is choosing a place to eat or order from, the coupon may be the deciding factor on whether a customer places an order.

Z-Stack Coupons

Multiple uses and quick access

Another great grocery option is the z-stack coupon. The easy tear-off function allows one customer after another to grab one or more as they shop. They can be attached to the store shelf with a dispenser or wall-saver tape that adheres directly to the point-of-purchase display.

Z-stack coupons can also be displayed in the checkout lane with an economical holder.

Get the word out about savings

iTSA's z-stack coupons can also serve as a mini billboard for your products. If a shopper is debating which product to purchase, this tiny advertisement — combined with the savings it offers — could make all the difference. They can be affixed at the point of sale just like their grocery counterparts and can be torn off one at a time — getting the word out to as many customers as possible.

Hospitality List Pads

Another way to welcome your guests

Make your guests' stay as comfortable as possible by adding commonly used phone numbers on the bottom of the pad. It's a great space to provide information for housekeeping, mail services and even local restaurants that deliver.

Perfect for quick notes and conferences

Give guests peace of mind by providing them with bedside notepads so that quick thought they just had doesn't slip away. Guests can also use pads to serve as a way to communicate with the hotel staff, such as a note to drop in a laundry bag when hanging it on their door.

If they're in town for a conference or convention, you could provide your guests several different pad sizes together for a useful give away.
